***Aluminium  
in the marine  
environment***

# Contents

	Side
<b>1. Examples of products from the Marine Environment</b>	<b>6</b>
1.1 Established materials in the marine environment	6
1.2 Aluminium in service vessels	8
1.3 Aluminium in ships	10
1.4 The fish farming industry	11
1.5 Offshore	13
1.6 Subsea constructions	14
<b>2. Materials and choice of materials</b>	<b>16</b>
2.1 Pure aluminium	16
2.2 Aluminium alloys	16
2.3 Aluminium alloy designations	17
2.4 Non heat-treatable alloys	18
2.4.1 Annealing	18
2.4.2 Designations of temper	19
2.5 Heat-treatable alloys	19
2.5.1 Designations of temper (AA system)	20
2.6 Aluminium alloys in the marine environment	20
2.7 Experience from choosing alloys for the shipbuilding industry	21
2.8 Material Properties	22
2.9 Thermal properties	31
2.10 The use of castings	31
2.10.1 Casting methods	32
2.10.2 Mechanical properties	33
<b>3. Profiles</b>	<b>34</b>
3.1 The extrusion process	34
3.2 limitations when manufacturing profiles	35
3.3 Dimension and shape tolerances	35
3.4 Structural advice on profile design	35
3.5 Example of application of profile design	37
3.5.1 Profile design - welded beams	37
3.5.2 Profile design - clips	38
3.5.3 Profile solutions for panel production	38
3.5.4 Hollow profiles	39
<b>4. Purchase and storage</b>	<b>40</b>
4.1 Availability	40
4.2 Purchase of profiles	41
4.2.1 What size profiles can be supplied	41
4.3 Purchase of sheet and plates	41
4.4 Storage	42
4.5 Labelling	42
4.6 Recycling	42

<b>5. Fabrication</b>	<b>Side 43</b>
5.1 Welding	43
5.1.1 TIG welding	44
5.1.2 MIG welding	44
5.1.3 Welding properties	45
5.1.4 The heat affected zone	45
5.1.5 Practical advice in connection with TIG and MIG welding	46
5.1.6 Weld seams	47
5.1.7 Welding economy	48
5.1.8 Welding defects	48
5.1.9 Welding control	48
5.1.10 Weld deformations	50
5.1.11 Friction stir welding	51
5.1.12 Explosion welded connections	52
5.2 Mechanic connections	53
5.2.1 Bolt connections	53
5.3 Forming and machining	55
5.3.1 Bending	55
5.3.2 Cold forging	56
5.3.3 Cutting	56
5.4 Surface treatment	57
5.4.1 Anodising	57
5.4.2 Painting	58
5.4.3 Cladding	59
<b>6. Repairs and modifications</b>	<b>60</b>
6.1 Repairs to welds	60
6.2 Welding in replacement sections	60
6.3 Bolting	60
6.4 Work that should be carried out in a workshop	61
6.5 Painting	61
6.6 Installation of new equipment	61
6.7 Repair of surface damage	61
<b>7. Corrosion</b>	<b>62</b>
7.1 Aluminium and corrosion	62
7.2 Important types of corrosion	62
7.2.1 Pitting corrosion	62
7.2.2 Galvanic corrosion	63
7.2.3 Crevice corrosion	65
7.2.4 Intergranular corrosion	66
7.2.5 Exfoliation corrosion	67
7.2.6 Stress corrosion	67
7.2.7 Stray current corrosion	67

7.2.8 Waterline corrosion	67
7.3 Corrosion conditions in different seawater environments	67
7.4 Methods of protection	68
7.4.1 Cathodic protection	68
7.4.2 Protection by coating	68
7.4.3 Anodising	68
7.4.4 Cleaning	69
7.4.5 Fouling	69
7.4.6 The effect of welding	69
7.4.7 Structural design	69
<b>8. Aluminium and fire</b>	<b>70</b>
8.1 General	70
8.2 Aluminium properties at elevated temperatures	71
8.3 Fire insulation of aluminium structures	72
8.4 Fire design	72
8.5 Fire classified structures	72
<b>9. Design of aluminium structures</b>	<b>73</b>
9.1 Properties	73
9.1.1 Low density combined with high tensile strength	73
9.1.2 Low elasticity modulus combined with high tensile strength	74
9.1.3 High coefficient of linear expansion	74
9.2 Regulations for design	74
9.3 Bolted connections	75
9.4 Welded structures	75
9.4.1 Shape of weld groove	75
9.4.2 Strength of the weld and the heat-affected zone	76
9.4.3 Accessibility	77
9.4.4 Design of explosion-welded connections	78
9.4.5 General design tips for welded details	78
9.5 Fatigue	79
9.5.1 Fatigue design	79
9.5.2 The initiation of fatigue cracking	79
<b>10. Summary of structural tips</b>	<b>81</b>
10.1 Advice on design	81
10.2 Structural advice for profile design	81
10.3 Design tips for welded details	81
10.3.1 Practical advice on TIG and MIG welding	82
10.4 Advice on preventing corrosion	82
10.5 The availability of expertise	83
10.5.1 Hydro Aluminium Profile a.s	83
10.5.2 Centre of Excellence: Aluminium Solutions	83
10.5.3 Hydro Marine Aluminium a.s	84
10.5.4 Hydro Aluminium Vekst a.s	84
